

IEEE CertifAIEd™ Professional Certification in AI Ethics

Hosted by iReady
In partnership with
**IEEE Standards
Association**

Empowering Professionals to Lead with Integrity in AI Innovation

Why This Matters

AI is now woven into every sector — from finance and education to governance. The challenge? Ensuring these systems are **ethical, transparent, and accountable**.

The **IEEE CertifAIEd™ Professional Certification** gives you the tools, frameworks, and credibility to lead responsibly — aligning your organization with global standards and future regulations.

Global Standards Local Impact

Built by the **IEEE Standards Association (IEEE SA)**, the CertifAIEd™ Framework helps organizations:

- Stay compliant with **AI governance laws** (EU AI Act, US and Asia regulations)
- Embed **ethical principles** into every stage of AI development
- Strengthen **governance and risk management**
- Build **stakeholder and consumer trust**

What You'll Learn

Gain practical skills and frameworks across:

- ✦ **AI Ethics Foundations & Global Regulations**
- ✦ **Ethics Profiling & System Mapping**
- ✦ **IEEE CertifAIEd™ Criteria Suites:**
Accountability | Transparency | Privacy | Algorithmic Bias
- ✦ **Certification Exam Preparation**

Course Overview 3-Day Intensive Program:

Day 1 – Foundations & Ethics Profiling
Day 2 – Criteria Suites & Use Cases
Day 3 – Privacy, Bias & Certification Prep

Building future-ready leaders for a responsible AI economy

Micro-Credentials for Specialisation

After certification, continue upskilling with stackable pathways:

- Practical Assessor Skills
- Responsible AI Procurement
- IEEE 7000 System Design
- EU AI Act Essentials
- HR in AI
- IEEE 7003 Algorithmic Bias

Who Should Attend

Perfect for professionals involved in **project integrity, risk, compliance, innovation, or governance**, including:

- HR, Legal, QA, Insurance
- AI Developers & Product Managers
- Public Sector & Policy Leads
- Corporate Trainers & L&D Heads

Benefits to You & Your Organization

- Apply global AI ethics frameworks effectively
- Build responsible AI governance capacity
- Strengthen brand trust & stakeholder confidence
- Align with regulations & reduce organizational risk
- Advance your career with an IEEE-recognized credential

Certification Pathway

1. Apply with work experience verification
2. Choose training format (virtual, in-person, self-study)
3. Complete course & pass exam
4. Earn 3-year IEEE CertifAIED™ credential
5. Maintain certification via micro-credentials

For Organizations & Institutions

iReady supports customized learning:

- On-site or virtual training (up to 20 pax)
