Learning Pathway

Your Certification Journey

1. Apply with work experience verification.
2. Choose your training: virtual, in-person, or self-study.
3. Complete the course and pass the exam.
4. Earn your 3-year certification.
5. Continue learning with micro-credentials.
6. Renew to stay current with evolving standards.

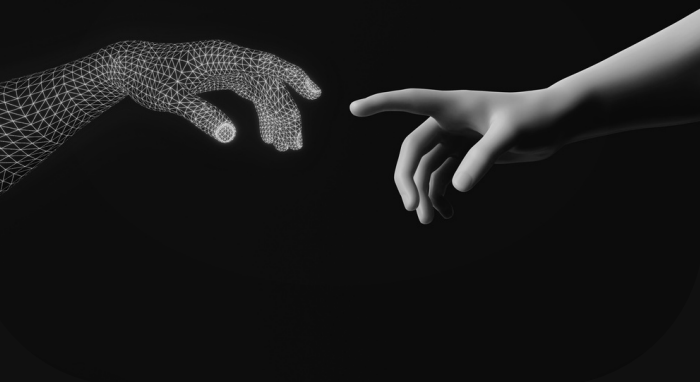

IEEE CertifAIEd™ Ethical AI Certification Program

Organized & Supported by

Hosted by **iReady**
In partnership with
IEEE Standards Association

About iReady

iReady, part of the iGroup network, helps businesses and people thrive in the AI era through its AI Readiness Program — a pathway to **Understand**, **Utilize**, **Apply** and **Govern** AI responsibly.

As the **authorized organizer** of the IEEE CertifAIEd™ program, iReady connects corporate learning with global standards to embed ethical and sustainable AI practice across organizations.

Lead with Integrity in the Age of AI

Build trust, strengthen governance, and future-proof your business through responsible AI adoption.

About the Program

Developed by the IEEE Standards Association, CertifAIEd™ is the world's leading framework for AI ethics training and certification.

It validates both people and products against four core ethical principles:

- ◆ Accountability
- ◆ Transparency
- ◆ Privacy
- ◆ Bias Mitigation

Why Ethical AI Now

- Comply with emerging regulations (e.g. EU AI Act)
- Strengthen ESG and risk governance
- Build digital trust and brand credibility
- Empower your team with globally recognized skills

Who Should Join

Compliance & Risk Managers •
HR & L&D Leads • Innovation &
Tech Executives • Policy Makers
• AI Developers
